

# PARK SMART

in

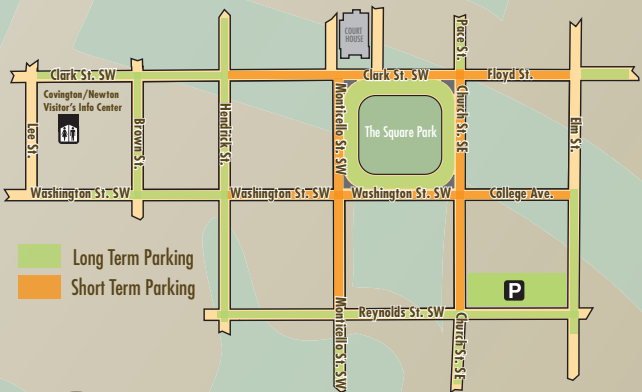

# Downtown

## COVINGTON

Parking Smart is a matter of turnover and on-street spaces for customers and visitors seeking downtown goods and services. Adequate parking turnover for customers, clients and visitors is insured by downtown workers using long-term parking zones, public parking lots and off street lots.

The goal of the parking program is to provide long-term parking in the inner circle of the square, one block off the square and in the City of Covington Parking lot on Church St.
